

## Is your State Senator supporting amendments to address family homelessness?

Budget debates on the **Senate Ways and Means** Fiscal Year 2019 budget proposal start next week. State Senators have this week to sign on as co-sponsors. It is our collective job to alert them to the amendments most important to us and to addressing family homelessness and affordable housing. Click on the amendment numbers below to see if your Senator is signed on to the amendment. If they are - say thank you! And if they are not, please call or email and ask that they add their names!

It is as easy as:

*"Hello, I am a constituent of the Senator. I am calling to ask that they co-sponsor amendments to address homelessness, including **Amendment #'s 777, 723, 797, 791, 525, and 14** - thank you!"*

[Click here](#) to look up your State Senator and refer to the chart below to provide more information about the amendments you are asking your Senator to support. If the office says your Senator is not cosponsoring amendment because of their position in leadership, you can ask that they advocate behind the scenes.
